Hot Weather Brings a Demand for Wash Dresses.

Various Uses to Which Transparent Embroide les Are Put.

In these hot days the wash dress appeals with a voice that will not be denied for recognition. It is no time for cloths or silks. The thinnest and coolest fabrics are not too thin or cool in the heated term. There was a time when these gowns of glagham or dimity were shapeless wrappers, without even the comcliness of a Mother Hubbard. We have changed all that. Nowadays there are a great many stylish models in wash dresses from which to choose the shape of one's Summer apparel. An effective organdy, in cream, with ngurings of heliotrope, mauve and dark purple, is made en princesse, the corselet is of fine black lace, and two tands of the same are laid around the skirt; cuffs are also of lace.

The transparent multi-colored embroideries are used round skirts, headed by narrow galons and often ending in ruches. They form Pigaro jacket trimmings, transparent sleeves, belts, and walst trimmings, and ometimes are used for yokes. Occasionally they are made into full capes which fall to
